THE NEW JERSEY EXONUMIA SOCIETY

PRESIDENT'S MESSAGE

Exonumia. A word in our vocabulary but perhaps without its origin fully comprehended. We are familiar with the term numismatics (or numismatology) and its student the numismatist (or numismatologist), but what about its branch exonumia? Construed from "exo" meaning "outside" and numia coming from numismatic, suggesting "currency" (to include coins and notes) and broadly, medals, evolves exonumia. So what do we exonumists study (besides exonumic material, that is)? "Items related to those of numismatic nature" might be an acceptable definition of exonumia. But how about those "collectibles" that have no implication of monetary significance but seem to creep into being included as exonumical? Indeed, material that suggests something for something qualifies as exonumia. Items related to or extracted from numismatic events, such as convention badges, programs, and memorabilia would want to be included.

Are we not specialists in tokens (taken to include such items as private coinage (e.g. Hard Times and Civil War tokens, good fors, transportation tokens) and script, elongated cents, and medals (although having no monetary foundation, they have traditionally been included under the heading of numismatics and hence exonumia)?

It seems that perhaps we need to better define the qualifications for inclusion in our specialized yet broad hobby. I would be very much interested in hearing your thoughts on this matter.

Please take note of the various scheduled regional meetings and swap-sessions detailed elsewhere in the journal. Happy collecting - hope to see many of you in Clifton.

N.J.E.S. Regional Meeting at 1 PM at the Delaware Valley Token & Medal Show on Saturday 19, 1984 (May). Mt. Laurel, NJ

N.J.E.S. Annual Meeting at 12:30 at the G.S.N.A. Convention on Saturday 23, 1984 (June) Cherry Hill, NJ

We are working on a site to hold a regional meeting in Lakewood, NJ plus a site to hold an annual NJES Token & Medal show of our own.

We would like to hold a regional meeting in South Jersey for our members down there. If any of our members (from South Jersey) can work on this for us - please get in touch with the president.

An Illustrated Outline of Pre-Confederation Provincial Canadian Coinage

II. Nova Scotia ("New Scotland"), 1823-64.

- A. Semi-regal. In view of the withdrawal of private tokens in 1817 and the fact that British regal coppers could not be obtained, the provincial government made arrangements with John Walker & Co. of Birmingham to provide coppers that were slightly lighter in weight than the corresponding official British Imperial coppers. This was done without the knowledge of the British government, who surely would not have allowed such an issue at that time. These coppers are therefore best described as semi-regal tokens, as they lacked the authority of the home government but not that of the provincial government.
1. George IV "thistle" tokens
 - a. 1823 - 400,000 half-pennies struck
 - 1) with hyphen between Nova and Scotia
 - 2) without above
 - b. 1824
 - 1) 118,636 half-pennies struck
 - 2) 217,776 pennies struck
 - c. 1832 (George IV died in 1830; evidently the order for "coins similiar in design to those of 1824" was taken too literally!)
 - 1) 800,000 half-pennies struck
 - 2) 200,000 pennies struck
 2. Victoria "thistle" tokens
 - a. 1840
 - 1) 300,000 half-pennies struck
 - 2) 150,000 pennies struck
 - b. 1843
 - 1) 300,000 half-pennies struck
 - 2) 150,000 pennies struck
 - B. Regal, 1856. By the 1850's the attitude in Great Britian was more favorable toward the issue of local coppers in British North America. The Nova Scotia government applied for and received a coinage of half-pennies and pennies. The master tools were engraved by L. C. Wyon, using his own design for the obverse and that of Halifax botanist John S. Thompson for the reverse. Coinage was executed by the Heaton Mint in Birmingham due to the preoccupation of the Royal Mint with the Imperial coinage. Most pieces were struck in bronze; brass half-penny business strikes exist. The "L.C.W." half-pennies exist only as proofs, hence they are properly considered patterns. They are commonly referred to as the "May-flower" (the provincial flower) coins.
 1. 300,000 half-pennies: 7.78 grams, 27.9 millimeters
 - a. bronze
 - b. brass (rare)
 2. 150,000 pennies: 15.55 grams, 33.3 millimeters
 - a. with "L.C.W." under bust
 - b. without above
 - C. Decimal. In 1859 Nova Scotia adopted a monetary system consisting of dollars and cents, but set its dollar at the rate of \$5 per pound sterling. This enabled the province to utilize British silver (the shilling was equal to 25¢ and the 6-pence equal to 12¼¢); however it necessitated the issuance of a half-cent piece to make change for the six-pence. Only cents and half-cents were issued prior to the Confederation in 1867.

PONTIAC

THE MARK OF GREAT CARS

Thank you for your inquiry about the Pontiac promotional coin.

To give you the background: The Oakland Motor Car Company became part of General Motors in 1909 and was one of the first components of General Motors. In 1926, the Oakland division of General Motors decided to introduce a new product, the Pontiac. It featured a six-cylinder engine and was called "The Chief of the Sixes." As part of the promotional activity at the time, 20,000 coins were minted and distributed to dealers for their use in stirring up interest in the new product.

The Pontiac car became so popular that in 1932, the Oakland car was dropped and the name of the division was changed to Pontiac Motor Division.

There are many of the coins in circulation and, in fact, a coin dealer in Denver wrote us recently, offering to sell about 50 of these coins that he had collected. He was getting one dollar each for them.

- #3 (mint mark) - W.&H. CO. U.S.A. without DOT

Their is a raised DOT (near ear) in the Hair.

Pontiac Motor Division General Motors Corporation One Pontiac Plaza Pontiac, Michigan 48053

Two years ago, I wrote an article about the plastic sales promotion chips given out to shoppers by the Greentree I.G.A. store in Marlton, NJ. At that time there were 6 different varieties of chips to collect. Since that time the store has kept issuing chips at the rate of several thousand per week, so that now there are 39 different varieties! A typical weekend grocery shopping trip nets you a dozen or two brightly colored plastic chips of nearly as many varieties. Naturally, this is not only good for the grocery budget but fun for the token collector as well.

The chips still come in the three color varieties, red, white and blue. In addition, there are five different blue sticker varieties, and five different planchet (plastic chip) varieties. The combinations add up to 13 different sets of red, white and blue tokens, making the 39 varieties. They can be classified as follows:

Stickers: Let A represent the original "JM" sticker (for the owner, Joe Mazzochi, whose name I misspelled in the first article). Let B represent the "I.G.A." sticker. Let C be the dark blue sticker with "I.G.A." D has the words "GREEN-/TREE/I.G.A." E has "Greentree/IGA" in a logo design.

Planchets (chips): Using numbers for the planchets, let 1 represent the original chips with both outer and inner rims. Variety 2 has no outer rim, only an inner rim. Variety 3 is rimless. Variety 4 is a poker chip, having the four playing card suits (club, heart, spade, diamond) incused in the chip. Variety 5 is also a poker chip, but has the spade suit only in relief.

Colors: Using lower case letters for colors, let r be for red, w for white and b for blue.

Using the above system, for example, a token having the Greentree/IGA LOGO sticker on a rimless, white chip would be E-3w. The three piece set with that particular sticker and chip would be E-3r,w,b.

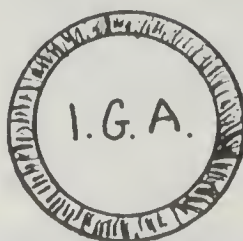

These are the 39 varieties presently known:

A-1r,w,b	B-4r,w,b	D-1r,w,b	E-1r,w,b
B-1r,w,b	B-5r,w,b	D-3r,w,b	E-3r,w,b
B-2r,w,b	C-1r,w,b	D-4r,w,b	
B-3r,w,b	C-3r,w,b		

The six varieties I originally reported were A-1r,w,b and B-1r,w,b. The others are all later, and are listed in approximately the order in which they came out, so that the logo design chips are the newest ones.

The chips today are still given out at the rate of one for each \$5.00 worth of groceries purchased, but they are worth less on redemption. according to the current advertising circular, the chips are worth 5¢ to 10¢ each depending on the item redeemed. The 14 pound turkey that was free for 100 chips two years ago is now free for 220 chips.

If NJES members would like to collect these chips, I will accumulate a trading stock. According to the store manager, the Mazzochis also own an I.G.A. in Penns Grove, Salem County, that gives out chips with red sticker. Perhaps one of our members in that area can check out the store and report on the varieties that can be found there.

THE NEW JERSEY EXONUMIA SOCIETY

PRESIDENT'S MESSAGE

After reading the printed version of last month's Message, I said to myself, "Terse...make the next Message terse" ...and so I shall....

It is with great pleasure that I formally announce the appointment of Charlie Licata to the office of Corresponding Secretary. Charlie, who was only two spaces behind me in the Charter Membership line at our initial meeting, replaces Walter Stevenson who resigned due to increased business demands. Remember, the board welcomes and solicits your thoughts - just send them to Charlie.

Our swap-session in Clifton last month certainly did not attract as many dealers nor patrons as we all had hoped. It was a great day for touring; I was surprised not to see more stop in for a $\frac{1}{4}$ -hour or so.

You will not want to miss the Delaware Valley Token & Medal Show this month. Not only will there be two auctions, but also a N.J.E.S. regional meeting as well. And please don't forget about our annual gathering at the G.S.N.A. convention next month. There will be a speaker, a couple of exhibits, a slide show, and even a few minutes for confabulating and trading. There's much to go for; why not greet an old friend and meet a new one.

Hoping to see many of you in Cherry Hill,

Fraternally yours,

R.K.

Editor

August 29, 1983

Gary Patterson
RD #3
1108 N. Hampton Blvd.
Toms River, NJ 08757

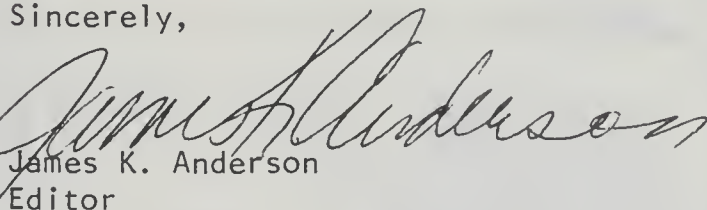

Dear Mr. Patterson:

In reply to your letter of August 3, 1983 concerning the VFW National Home "Luck Charms."

I am enclosing photocopies of articles that appeared in Foreign Service during the period you mentioned. The lucky charms idea was that of Past Commander-in-Chief Robert Woodside, then president of the VFW National Home, in an attempt to build up an endowment fund for the Home. From all indications, these charms, I conclude, were the forerunners of the Home's annual Christmas Seals. These are the only two references I have found to the charms and the program may well have died out after Woodside's term as Home president.

The VFW National Home is located in Eaton Rapids, Michigan. We suggest you contact Theodore Wilson, the current president.

Sincerely,

James K. Anderson
Editor

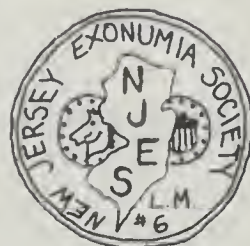

JKA:pab

Enc.

NOTE: There appears to be only 3 of these "Lucky Charm" tokens that were made (by Whitehead & Hoag). The one shown above (1933) and two other different designs issued in 1934 & 1935. The 1935 one seems to be the one that didn't sell that great with the VFW members.

Fanwood, N.J. 07023

III. New Brunswick, 1843-64.

- A. Semi-regal, 1843. In 1841 the provincial government attempted to alleviate the copper shortage by importing 3,000 pounds worth of British Imperial pennies and half-pennies. Being sterling, these coins were worth a fraction more in local currency than their face value. The government found that they could circulate them only at 1 penny and $\frac{1}{2}$ penny local currency because there was no way to make change for small numbers of pieces.

Only about 150 pounds worth of the Imperial coppers had been put into circulation when the provincial government decided to return the remainder to England and obtain in their place tokens payable in local currency. Consequently the government entered into a contract with William Hammond of Halifax to make the necessary arrangements for obtaining new coppers. When the British government was informed of the colony's plans it was furious! Hereupon, the colonial government informed the Colonial Office in London that the contract with Hammond had been cancelled as well as all plans for a new coinage! The evidence at hand suggests that the New Brunswick government quietly went ahead with the coinage plans and did indeed obtain coppers from Boulton & Watt of Soho, England. The British government knew nothing about them until 1853 when the application was made for a new coinage of coppers by the uninformed successor of the Lt. Governor under whom the 1843's had been so intriguingly acquired. The main objection of the Colonial Office of these coppers was the use of the unprecedented diademed head of Queen Victoria.

1. 480,000 half-pennies
 2. 480,000 pennies
- B. Regal, 1854. By 1853 the Colonial Office was more favorable toward the issuance of local coinages by British North American colonies. The master tools from the 1843 tokens were forwarded from New Brunswick to the Royal Mint where they were used as a source of modified designs. Preoccupied with the Imperial coinage striking, the Royal Mint sent the new dies, with Victoria nondiademed as well as the word "currency" in place of the word "token" on the reverse (which implied the official status as well as Halifax Currency, the standard at the time) to the Heaton Mint in Birmingham.
1. 480,000 half-pennies: 28.3 millimeters, 7.78 grams
 2. 480,000 pennies: 34.3 millimeters, 15.55 grams
- C. Decimal. On 1 November, 1860 New Brunswick adopted a monetary system consisting of dollars and cents, with the dollar equal to the U.S. gold dollar, hence the British shilling was worth slightly more than 24¢ and the six-pence slightly more than 12¢; therefore there was no need for a $\frac{1}{2}$ ¢ piece. However the Royal Mint struck 222,800 pieces, with most pieces melted when the mistake was discovered. Only a few proofs and a few hundred (generally considered to be 800 or less) business strikes escaped mixed with Nova Scotia half-cents and were sent to Halifax.
1. Half-cents, 1861: 20.65 mm., 2.835 g., comp.: .95 Cu, .04 Sn., .01
 2. Cents: 25.53 mm., 5.67 g., composition as above
 - a. 1861 - approximately 1,000,000 struck
 - b. 1864 - as above
 3. Five-cents: 15.49 mm., 1.162 g., composition: .925 silver, .075 cop
 - a. 1862 - approximately 100,000 struck
 - b. 1864 - as above
 4. Ten-cents: 17.91 mm., 2.324 g., composition as above
 - a. 1862 - approximately 150,000 struck
 - b. 1864 - as above
 5. Twenty-cents: 22.99 mm., 4.648 g., composition as above
 - a. 1862 - approximately 150,000 struck
 - b. 1864 - as above

NOTE: This section on Nova Scotia was inadvertently left out of PART 2

1. 1861

- a. 400,000 half-cents; 20.65 mm., 2.835 g., comp.: .95 Cu, .04 Sn, .01 Zn
- b. cents (Records indicate 800,000 1861 1¢ pieces and 1,000,000 1862 pieces; more likely, 100,000 1862's, meaning an additional zero was given in error.) 25.53 mm., 5.67 g., comp. as above

2. 1862 cents (rare)

3. 1864

- a. 400,000 half-cents
- b. 800,000 cents

NEW BRUNSWICK

MILITARY DISTINCTIVES FOR STATE GUARDS

NEW JERSEY (WORLD WAR II)

RIBBON BAR

One of our last August Sunday Flea Market trips proved to be a wonderful productive day. I managed to find a scarce unlisted elongated cent for my collection which also is a New Jersey issue. It reads: B.P.O.E. (clock & Elk center) ASBURY PARK/ STATE CONVENTION / 1926 - rolled on a penny date not clear as sometimes happens:

I've had offers of trade or one hundred dollars for this "unlisted" but refused because it is such a scarce N.J. "find"

Several of the "listed" older New Jersey elongateds are are rough to find and I still require many of these - so the hunt goes on !

Most readers of the "JERSEYana" will recall I also like to enlarge the list of the newer New Jersey elongateds by having a few designs rolled each season - see the ad on my latest local city design - perhaps you may wish to order one.

SECRETARY

Whitehead and Hoag Co.
Newark, New Jersey

Attention Mr. James Reiher

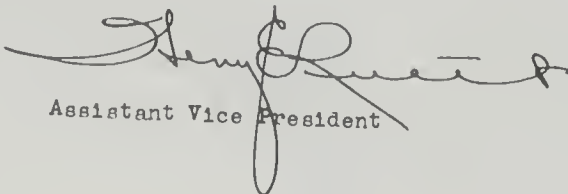

Gentlemen:

We sent your registered Bronze Key Guard Medallions to each new family that moved into our territory---offering free key guard service, and, of course, describing our complete banking facilities.

Out of five thousand issued, we have had only two refused. We have opened up a wealth of new accounts and consider this one of our finest business building efforts.

To carry on this fine work, we enclose our re-order.

Yours truly,

Assistant Vice President

HER:CC

Recipients were much impressed the Registry feature insuring the turn of lost keys if found and returned to the Bank—a long-proven method that has restored thousands of keys.

Yes, Selective Advertising does Banking Services profitably. For each Service we can prescribe a different plan and useful, lasting message bearer which keeps on working for you long after your first objective is accomplished.

To appreciate the sales power of intriguing fineness and beauty of many idea-products you must see them. Each is specially designed and custom-made.

When will it be convenient?

The New Jersey Exonumia Society

President's Message

It was precisely one week ago this morning that I embarked on that "although-not-too-terribly-long-but-so-very-monotonous" drive down route 70 to Cherry Hill for the GSNA convention. Well...it was truly worth it. We had four days of seeing old friends, making some new ones, and, of course, shopping (in a more relaxed market than last year). And of course, tokens and medals were outnumbered by coins, but they were there! The NJES meeting on Saturday was only attended by a score of members and guests, and the slide set left something to be desired (although it came from the ANA), but several woods were given out, as was the NJES Literary Award to Mr. David Gladfelter (#21). Congratulations, Dave! Due to its being the first such award, it covered the entire Jerseyana issuance; however all future Literary Awards will be awarded on an annual basis. I had the distinct pleasure of presenting a plaque to our founding and immediate past president Al Zaika for his distinguished service. In summary, kudos to the GSNA and its host, the Ocean County Coin Club, for a splendid convention. Oh...as for our 50/50 drawing, Mr. Charles Messner (#26) bought the winning ticket. He wasn't there to collect (he was down at the registration table), but he was very pleasantly surprised by the check in the mail, I'm sure. (How much did he win?...you should have been there!)

It is possible that our Society would be the host club for GSNA #10. But before I commit myself and the club, I'd like to feel out the membership for support. Our responsibilities include the preparation of the program (which the officers would take care of) and supervision of the registration table - for which we need your support. If you would like to see NJES as next year's host club - you will recall that in 1982 we realized a \$1,250 addition to our treasury - please send me a note. Thank you.

We have scheduled another Dunellen swap-session on 16 September. That is the Sunday after the Ocean County Coin Club show, where we will hold a regional meeting (9 Sep) and only 8 days after the GSNA annual picnic (8 Sep), where all members of NJES (GSNA LCM#3) are invited. For directions to any of these undeniable events, call a fellow member or any officer. You, of course, may call me regarding any NJES matter at (201)-363-6368.

I wish all members and their families a safe and healthy summer, much fun at the flea markets and such, and Godspeed until we meet again.

R.K.

NOTE: In 1982 when N.J.E.S. was the host club member Jerry Zara put out a superb program for us. It was quickly grabbed up at the convention. Two years later - 15 of these programs are now in the hands of our President. If you are interested in getting one please contact R.K. Burke. (First come - First serve). Your only cost will be the postage to send it out. Write or call R.K. at P.O. Box 1004
Lakewood, NJ 08701

FAKE LAKEHURST BADGES

by Al Zaika

These two illustrated badges have been circulating for a number of years, but it's apparent that many collectors and dealers are unaware that they are modern made. Within the past few months I have seen these badges listed in several mail bid sales and fixed price lists. They can be found at many flea markets and antique shows, priced from 10 to 18 dollars each. The current wholesale price of these fakes is 1 to 2 dollars each, based on the quantity purchased, so the unsuspecting collector really gets "ripped off" with these fakes. The badges are made of brass, with the lettering and design incused and measure 45mm. Beware of anything that looks too good to be true and if you have any doubts about it - don't buy it.

Junior Order

United American Mechanics

Founded in 1853 at Germantown, Pennsylvania, in the quaint Concord School, the organization is non-sectarian, non-profit fraternal benefit society for men (Councils), women (Assemblies) and their families.

From New Hampshire to Pennsylvania

A few years back on one of my trips to N.H. I picked up an old Watch Fob. It was from the Jr. O.U.A.M. (Concord School House). Since I was only 60 or so miles from Concord, N.H. I placed the piece in my N.H. section of my collection. Never giving it that much thought it stayed there until Walter Scott of Maryland sent me an Jr. OUAM application. As you can see it is a PA. item and not Concord, N.H. The rev. of the Fob reads - MERIT/ AWARD/Jr. O.U.A.M./DIAMOND/JUBILEE/ CLASS. It is dated 1923 (made by W&H). The Jr. O.U.A.M. NATIONAL COUNCIL is located in Knoxville, Tenn.

ACCEPTED ON A BOX
copper, round, 31mm, plain edge.

The above described token is one of only two trade tokens known to me from my home town of Moorestown. Although Moorestown celebrated its tricentennial in 1982, the event apparently escaped the attention of token and medal manufacturers. A personal token order I placed with Plasco that year went astray and was never followed up, sorry to say. The token is in my collection, along with the obverse die which I discovered in 1972 in the basement of S.H. Quint & Sons, a Philadelphia token manufacturer of the 1890-1960 period. It follows that these tokens were struck by Quint, probably in the 1915-1920 period when most bank tokens of this type were issued.

Moorestown Trust Co. was established in 1913. It merged with the Burlington County Trust Co. on December 31, 1931. Its present office is at 91 East Main Street in Moorestown. The building shown on the token is a different building, toward the other end of a long city block at 41 East Main Street. That building is still standing, but is now Wright Hardware store. The name "Moorestown Trust Company" still shows at the top of the building. The token is listed and a photo shown in Damia Francis's second New Jersey Supplement in the December 1971 TAMS Journal

New Jersey collectors will find many hometown bank tokens to collect similar in design to the above piece, mostly struck by Quint. One of the most attractive is that of the Washington Trust Co., Newark, which shows a fine equestrian statue of Washington. I also have the obverse die to that token, listed by Francis in the 4th Supplement, October, 1973.

NOTE: The Wooden Dollars N.J.E.S. issued for our annual meeting in Cherry Hill have been assigned the following numbers. All members have received at least one of the types in this newsletter.

NJES # 23 (Peace Dollar Type)	NJES # 24 (Morgan Dollar Type)

DEADLINE FOR SEPT/OCT. ISSUE IS SEPT. THE 1st. All ADs & Article's must be in by then. Sent to 1108 N.Hampton Blvd. Toms River, NJ 08757

THE NEW JERSEY EXONUMIA SOCIETY

CHARGE COINS

circa 1865-1943

by Ed Dence

While attending the Delaware Valley Token & Medal Show in Mt. Laurel, NJ., we ajourned to a side room for an informal session of the N.J.E.S. and after discussions in reference to our newsletter, the JERSEYana we were asked to submit an article on our favorite items. Mine is about Department Store Charge Coins, so here it is.

"Charge Coins" What are they ? How were they used ? These pieces of metal of odd shapes and sizes ? The use of the coins were varied. In your local haberdasherie you could purchase a necktie, to a pair of shoes. At the drug store it was used to purchase a bottle of cough syrup to a box of candy. Even a washing machine to a sofa could be bought from your favorite department store. As long as the coin was issued by these stores. Some stores did not issue these charge coins, but most did. Not every one owned one of the magical coins, that could purchase so many things.

To aquire one, you had to have the means of guaranteeing payment at a later date, usually the end of the month when the bills came due. You also needed to have a responsible job or position. Never in those days did the stores solicit you as they do today with their colorful charge cards of plastic money. You had to apply to the store or stores who issued these charge coins. Then after filling out an application, and after they ran a background and financial check on you. Then you might qualify for your coin. These coins were usually holed so they could be put on a key ring for safty. Many of the women wore them on chains around their necks to keep them from being mislaid or lost.

Many of these coins had a monograhm of the store stamped on them along with a number for identification. Some had the full name of the store on them, none ever had the name of the person to whom it was issued, when making a purchase. The sales person, without tendering the goods to the buyer would check a master list to check the name of the customer against the number on the coin. If they didn't match or you didn't give the correct name, you didn't get the merchandise. So if a lost coin was found by someone other than the person to whom it was issued it did not do them any good.

(charge coins con't)

In a case like this the salesperson would keep the coin so it could be returned to the rightful owner. Aside of the shapes and sizes of the coins, they were also of different metals, as copper, brass, German silver, steel, and some were of fibre. All to me are very interesting and when finding a new one for my collection, I get very excited to know there are many more to hunt for. I also have one of celluloid, that much used composition of long ago.

Every weekend if weather is nice, I head for any and all flea markets hoping to find a jackpot. But being lucky if I only find one charge coin. In my collection I also have a few of the "Mavericks" and they lie dormant in my binder until I, or someone brings results. City Directories and Merchantile Catalogs are a great help. But the best help I've gotten is from people like you, interested in Exonumia, from the state of New Jersey. I only have eleven, there must be more. Any information on charge coins used by stores in your area would be appreciated.

An Illustrated Outline Of Pre-Confederation Provincial Canadian Coinage
by R.K. Burke

IV. Province of Canada. Formed in 1841 by the joining of Upper and Lower Canada.

- A. Pre-Decimal. See miscellaneous bank token issues.
- B. Decimal.

1. 1858

- a. One Cent. There was an order for some 10,000,000 bronze pieces to hold the Province over for some time. 421,000 pieces were struck. 25.4mm, 4.536g - composition: .95 copper, .04 tin, .01 zinc
 - b. Five Cents. 1,500,000 pieces struck. 15.49mm, 1.162g composition: .925 silver, .075 copper
 - c. Ten Cents. 1,250,000 pieces struck. 18mm, 2.324g composition: as above
 - d. Twenty Cents. 23.27mm, 4.648g - composition: as above 750,000 pieces struck. the English shilling was valued at 24¢, while the Halifax currency shilling was valued (theoretically) at 20¢; hence the Province decided to strike a twenty-cent piece rather than a twenty-five-cent piece. Due to the confusing similarity of the U.S. 25-cent piece, it was not struck again in Canadian numismatics. In 1870 when the Dominion of Canada issued its first coinage, the twenty-five-cent piece was selected; a proclamation dated 9 September called for the withdrawal of the twenty-cent pieces. Over half of the issuance was returned to the Royal Mint, melted, and re-coined into twenty-five-cent pieces between the years 1885 and 1906. Both the obverse and reverse were designed and engraved by L.C. Wyon. The reverse device shows the familiar crossed boughs of maple.
2. 1859, One Cent, 9,579,000 pieces struck from both re-engraved 1858 and original 1859 dies

V. Miscellaneous.

- A. Magdalen Island Token, 1815/Success To The Fishery, One Penny. Issued by Sir Issac Coffin who planned to rule as a feudal baron the thirteen islands, a part of the colony of Newfoundland, after he was awarded them after the American Revolution. Coffin learned that he did not have the authority of a colonial governor, but the pieces continued to see much circulation. In 1825 the British government transferred the Islands to the administration of Lower Canada. The issuance, struck in Birmingham, is considered a semi-regal one, and is rather scarce.
- B. Province of Upper Canada/Half Penny Token, 1832. these pieces of good weight and size were struck by John Walker & Co. and are considered semi-regal mainly due to the lack of a merchant's name and the presence of the George IV bust

VI. Digest. It should be noted that this five-part series includes all of the officially issued tokens as well as the decimal coins of colonial Canada. One must remember when looking through a Canadian token book that all of the other pieces are either varieties of contemporary counterfeits of the bank tokens or, in the case of the New Brunswick, Nova Scotia, Newfoundland, and Prince Edward Island pieces, merchant's tokens. In comparison, U.S. colonial coinage does not include the Hard Times Tokens, Civil War Tokens, or other Early American tokens, although both groups did of course circulate.

It is generally taken that the Province of Canada decimal coins (1858-59) be included in the Dominion of Canada (Canada as we know it today) listings. Indeed, these pre-1870 (the year that Canada was formed) should no more be included in the Canadian lists than the decimal issues of the other colonies (New Brunswick, Newfoundland, Nova Scotia, and Prince Edward Island). Although these coins carried only the name "Canada", it is the colony "Province of Canada" and not the country Canada itself.

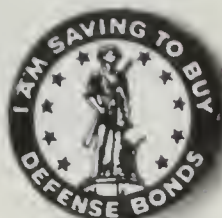

Errata

page 203, I.F. line 5; omit the word "first".
 page 210, II.C. line 4; should read 12½¢, not 12¼¢.

President's Message

Well...the summer months are all but behind us; frankly, it's fine with me.

I am very disappointed in the fact that not one member contacted me with regard to our being the host club for G.S.N.A. #10 (1985). Not having monthly (or semi-monthly as is often the case) meetings as most clubs do to occupy our time, I thought that as well afford our treasury a boost, it would afford us an opportunity to work together - both as a club and as friends. Our swap-session in Dunellen (originally scheduled for later this month) was also cancelled due to a definite lack of response.

When I assumed this office a year ago I had hopes of growth - not just in membership numbers but in membership participation... and membership contribution. I am sorry to say that many do not have either the time or desire to take an active part in such things as regional meetings, swap-sessions, display or classified ads, or even sending in their favorite piece for our journal. I'm a bit confused about the obvious lack of communication between people who are supposedly seriously interested in the same branch of numismatics; surely we have have a great deal to share.

All of this - and more - will be discussed at the Ocean County Coin Club show in Point Pleasant Beach at 1 p.m. on the 9th of Sept. at the Beacon Manor Hotel.

THE NEW JERSEY EXONUMIA SOCIETY

MEMBERSHIP NEWS

IT IS SAD TO REPORT THAT MEMBER AL ZAIKA HAS JUST LOST HIS BROTHER AND N.J.E.S. HAS LOST TWO OUTSTANDING MEMBERS.

Mr. "1909", Joe Lowande, died on July 28th of heart failure and Matt Gudman died on July 16th. Matt was one of our charter members and well-known for his Christmas woods he issued each year. Both served the hobby well and will be missed by those who knew them.

NEW JERSEY TRADE CHECKS (Good For's etc.)

Vice President Rocco DiGiacomo is working on a computer listing of all N.J. Trade checks. To date, 270 are listed with many more to be fed into the computer. If you have any checks in your collection please fill out a 3x5 index card with the following information on it.

CITY.....
MERCHANT'S LAST NAME.....
Obverse.....
Reverse.....
METAL..... MM (size).....SHAPE..... DENOMIN.....

YOUNG'S PIER - ATLANTIC CITY

Rocco has also been doing research on the above celluloid tickets for an article he is working on. He will pay \$50.00 for any that he doesn't have in his collection. Although these tickets (made of celluloid) were Good For' Transportation rides the A.V.A. refuses to list them.

**DON'T ACCEPT ANY
WOODEN NICKELS.**

We know of at least one person who pays no mind to this phrase. He is our past treasurer, Life Member #2 Jerry Zara, who has just added wooden nickel #1300 to his New Jersey collection. Jerry said that his goal is to reach "2000" by the year 2000, can he do it ?

Obverse

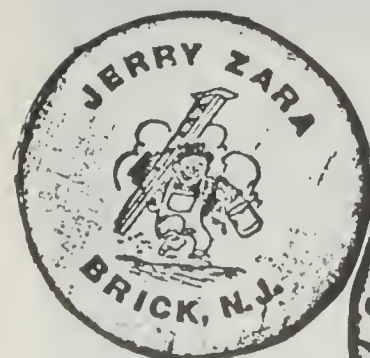

Reverse

Jerry's 1300th wood is one that the Ocean County Coin Club issued to commemorate their annual yankee ballgame trip, which was hand stamped with a second date. It just so happened that even though the game was played on July 21st it had rained on and off. For our inconvenience Mr. Steinbrenner, the Yankee owner, declared that anyone wishing to attend a later game would get a rain check. Jerry was one of the members that selected the August 19th game, so on their return trip the club hand stamped the reverse side with the second date. (only six of these were done) There were 100 of the original woods made, in black.

Can you assist Jerry with his goal to reach '2000" woods from N.J. before the year 2000 ? If you have a wooden nickel that you think he needs contact him at; P.O. Box 248, Brick, NJ.

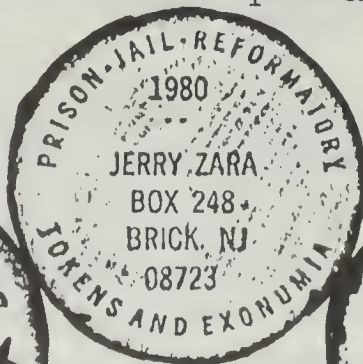

Jerry will trade you one of yours (or one from your area) for one of his . He has listed some of his own, or you may choose from one of his several hundred duplicates.

Alum. 24mm

Obv. ZIMMERMAN'S HOTEL POINT PLEASANT, N.J.
Rev. THIS IS THE PLACE

I picked this token up last year and traded it off to Jerry Zara (for a nice Ink Blotter from W&H). Since then Jerry has checked into it and found that the old Hotel was listed in D&B from 1900 to 1924. As you can see by the ADs the hotel has been sold to new owners and is listed as a boarding home for senior citizens.

WHAT IS IT ???????????

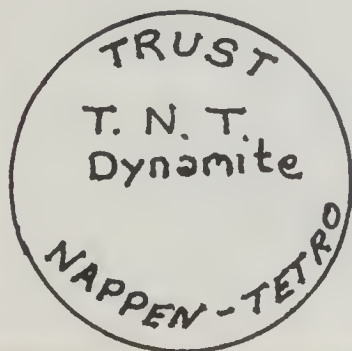

Member Bill Bernstein (18 Riverside Dr. S. Brick, NJ 08723) picked this token/? up and needs help. It appears to be brass (very light- but thick). about 16mm and the rev. is the same as the obv. If any of you know what it is write and let Bill know.

WOODEN NICKELS

We have three new ones to list this issue (two of them are TUIT).

The first one is from Monmouth College Bookstore (Blue/Indian) and its for STUDENTS ONLY/GOOD FOR 10% OFF ANY ARTICLE OF CLOTHING.

The second one (TUIT/Black) is from PICK-A-DILLY 1212 Yorkship Square Fairview Village CAMDEN, N.J.

The third one (Red/TUIT) is from West End, Long Branch, NJ (Monmouth College). TNT - TRUST NAPPEN TETRO. Mr. Nappen ran for student council and passed these out in 1980. (I forgot to ask him if he won).

N.J.E.S. SALUTES LM# 23 - Robert Mitchell of 629 Monmouth Way, Winter Park, Florida. 32792.

Although Bob lives in Florida, he is a serious collector of Ocean County (NJ) memorabilia and especially paper money from Toms River, NJ.

Bob recently won "BEST OF SHOW" at the Central Florida Coin Show with his display of bank notes - "THE BANK OF OCEAN COUNTY, TOMS RIVER, N.J. 1859 - 1865".

He also took "BEST OF SHOW" at other Florida coin shows for exhibiting "NEW JERSEY CIVIL WAR TOKENS".

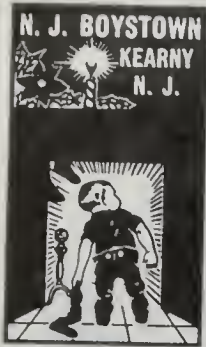

If any NJES member is interested in Ocean County money, they are welcome to contact Bob and swap research notes.

Bob's goal is to acquire at least one example of currency or scrip issued by each Ocean County banks and merchants.

Bergen Iron Works (Now Lakewood), Burrsville (Now Laurelton), Cedar Creek (Now Lanoka Harbor), Goshen (Now Cassville) are just a few of the towns in Ocean County that Bob is doing research on.

President's Message

By the time that most of you will be reading this, Thanksgiving will be upon us; let us not forget to take the time to say "Thanks". We all have plenty to appreciate.

Our swap meet in Brick had great potential: several nice rooms, air-conditioning, kitchen facilities, ample parking, as well as great weather conditions. However...we had only one dozen members...and that included the three dealers! We had a nice time, chatting and making our deals, but overall it was quite disappointing. We've had pleas to come to the Ocean County area - where we have over twenty(20) members - and so we did!

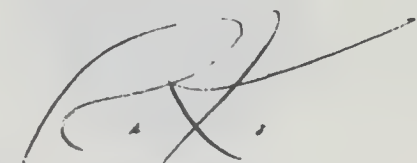

As this swap meet provoked no more of a response than our previous journeys, the Executive Board will have to decide whether or not to hold such activities again. Your letters would be most appreciated. Your support is both requested and required for a successful and prosperous Society. My mailbox is always open....

The Executive Board again approved the inevitable and quite necessary raising of dues to \$6/yr. In short, each 12-page issue, which can carry your classified ad at no charge, costs you only \$1! A pretty good deal we believe; don't you? Now might be a good time to consider converting to Life Membership; it's only \$60 and it lasts a lifetime! In either event, please be sure to send your 1985 dues to the Treasurer along with your correct and full mailing address and membership number. Members will be considered in arrears if their dues are received by 1 January!

Once again let me remind you that our Editor, the famous (or is that infamous?) Gary Patterson, is abandoning his duties mid-term. As he and his family move to New England, we need someone to move into the Editor's seat. As we have no regular meetings (and no swap meets?), we rely heavily on our journal, the Jerseyana, to keep our members informed, educated, and cohesive. If you are seriously interested in undertaking the long hours, the responsibility, the running around required and are capable of such a task, please contact me as soon as possible, as Gary expects the March-April issue to be his last.

As soon as Thanksgiving passes, we tend to up-shift to getting ready for Christmas. Let us not up-shift and speed by the true reason for Celebration. May God bless you all.

Exonumia is our Business

THE NEW JERSEY EXONUMIA SOCIETY

SPINNERS

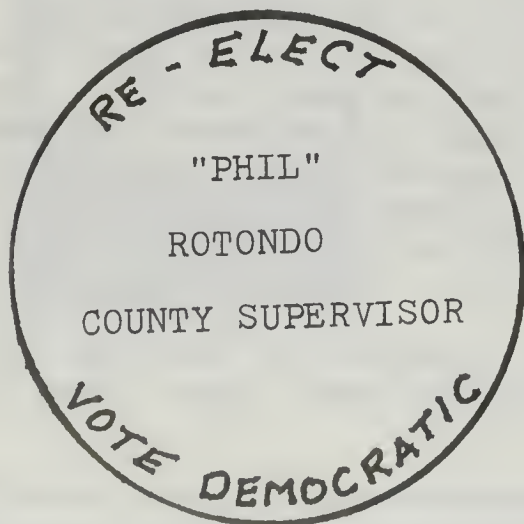

In 1981 I wrote a small article on Spinners for the New Jersey Numismatic Journal. As you can see a total of 19 were known at that time. Since then I have found only one that is unlisted. If you have any in your collection (from NJ) that isn't listed - please let me know and I will update the list for you in the next issue.

THE IDLE HOUR
HWY. 88
Point Pleasant,
N.J.

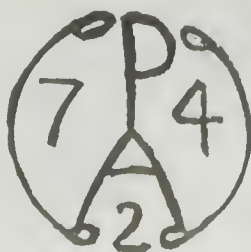

Member Archie Black reports his latest Plastic Bar Chip finds. A total of 4 Chips have been issued by the Idle Hour. They all have the illustrated obverse. The reverse GOOD FOR ONE DRINK is in Blue, The 50¢ is Red, 75¢ is white and the \$1.50 is in Green.

Advertising Mirror

This Political Mirror (55mm) was made by ROMAN ENT. of Newark, NJ. It doesn't appear to be that old - Perhaps Rotondo is from N.J. - any member out there know or heard of him ????????

Counterstamp

Member Walter Stevenson needs help in identifying the counterstamp that appears 3 times on a Liberty Walking Half that is in his collection. He has been told it is a mint engraver's stamp but he cannot verify this. If you know what it is please write to Walter at 22 Roanoke Rd., Matawan, NJ 07747.

New Jersey Token, Medals & Wooden Nickels

G.S.N.A. #293
N.J.E.S. #002

SPINNERS

ROUND & ROUND SHE GOES WHERE SHE STOPS
NOBODY KNOWS - YOU WIN - YOU PAY

We all played spin the bottle in our youth at sometime. It was easy to get a milk bottle and play then, as it was a very popular game to occupy ones time with the opposite sex. (Coins took a back seat).

Then along came the spinners where one could actually make bets and do a little gambling with his friends. A check with some of the top Jersey collectors shows that these spinners were no way near as popular as spin the bottle since there are only 18 or so known to be issued in the state.

I would like to thank the following collectors who helped me with my research on these spinners. Al Zaika who took the photos, Jack & Peg Wilcox, Herb Weiss and Bob Slawsky.

Here is a check list of those that are known. If you have any that aren't listed, I would appreciate hearing from you.

The following is an attempt to list all medals that have been struck by club members of the Garden State Numismatic Association. Future entries in this series shall include elongateds, badges, miscellaneous tokens. It will not include any woods; I'm leaving that small task to Jerry Zara! Please send any corrections and/or additions to my attention. Thanks...R.K. Burke (L M.#6)

Well...that's all that I'm aware of. If anybody knows of pieces not listed, PLEASE advise!
Also...if anybody would like to contribute information regarding elongateds, badges, etc.
from these clubs, PLEASE write...THANKS

THE NEW JERSEY EXONUMIA SOCIETY

FRATERNAL, LABOR AND MISCELLANEOUS ORGANIZATIONS

by Gary Patterson

In the last issue I listed two pages of initials found on Badges, Pin-Back Buttons, and Lapel Pins. The list came from the Whitehead & Hoag catalog that I have in my collection. Since then I have picked up another catalog - ILLUSTRATED CATALOGUE OF SOLID GOLD EMBLEMS 1928-'29. It was issued by J.W. RICHARDSON & CO. of New York City - Manufacturers of Solid Gold Emblems, Pins, Lapel Buttons & Charms. It has 4 pages of School Medals, Field Day & Athletic Medals in it plus it shows the SHEKELS (pocket pieces) that they made.

Mint Mark of the J.W. Richardson
Company of New York City

Here are a few of the initials found in the book and what they stand for -

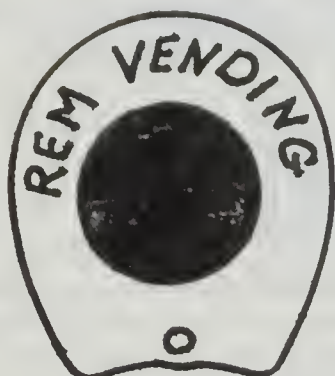

U.C.T.	United Commerical Travelers
X	Brotherhood of St. Andrew
A.W.L.	American Whist League
P.N.G. (Rebekah/ODD Fellows)	- Past Noble Grand
O.O.O.	Order Of Owls
D.O.K.K.	Dramatic Order Knights of Khorrassan (this maybe combined with the Knights of Pythias).
W.R.C.	Women's Relief Corps
D. of I.	Daughters of Isabella
H. of R.	Household of Ruth
BARC	Baraca
S.W.M.	Seven Wise Men
W.C.T.U.	Women's Christian Temperance Union
U.A.O.D.	United Ancient Order Of Druids
D.S.	Danish Sisters (D.B.) - Danish Brotherhood
O.S.C.	Order of Scottish Clans
N.P.L.	National Protective Legion
ST. G.R.O.	ST. George Ritter Order
W.C.A.	Woodchoppers Association

Rotary International is shown in the catalog combined with Knights of Columbus, Mystic Shrine & Masonic. Charlie Licata our Corre'/Sec'y has a large collection of these lapel pins and I hope the above list has been some help but I can see this area is wide open and vast for research and study - LOTS OF LUCK, Charlie !

99% of the ones in my collection cost between 25¢ and \$5.00 each with only two going as high as \$10.00 - so they are not out of reach for the average collector. The hardest part is finding out who issued them. They are very attractive and I would guess some of them are very rare as some of these organizations had less than 50 members.

THE NEW JERSEY EXONUMIA SOCIETY

NEW JERSEY ????????

I picked up 16 of these Encased Cents at a local flea market. The person who sold them to me thinks that they came from South Jersey but wasn't sure. They all have a 1977 cent in them.

I will send one to the first person who can tell me where it was (REM VENDING) located.

Wooden Nickel

We only have one new wood to report this issue and it was issued a few months back. It is a new shop that just opened up. Location is Route 88 and River Ave. in Point Pleasant, NJ. Black Letters. (name & address dose not appear on the wood). Jerry Zara sent in the information on it.

We still have some of NJES 1st Annual meeting woods left that we would like to sell off. If you never got one - send a SASE & 25¢ to our Corre'/Sec'y Charlie Licata P.O. Box 1004 Lakewood, NJ 08701 and he will see that you get one.
